WHARF AND WAVE.

DIAMOND HEAD, Oct. 8, 10 P. M. -Weather, cloudy; wind, E.N.E. The Claudine leaves today on her usual run, but before she re-

turns will make a special trip to Hilo. For that port she will only carry passengers and mails. No freight will be received.

The American bark Elsinore due here about the 20th, with a cargo of Newcastle coal, will likely be offered for sale. It is understood that two offers have already been made for the vessel.

According to reports from the Australia's officers the bark S. C. Allen and the brig W. G. Irwin are having plenty of wind and splendid weather on the run up. They should arrive at San Francisco the latter part of this week.

When the Australia left San Francisco, it was stated the Bennington would be the next man-ofwar to be sent to the Hawaiian Islands, and that she would probably remain all winter. Repairs that will take a month must first

She had to be brought to until the wind subsided, then headed for San Francisco.

Once more the Lucania breaks the transatlantic record. She made passage from Queenstown to Sandy Hook in 5 days, 7 hours and 48 minutes, arriving at New York September 28th, beating her best previous record of the last voyage by fifty minutes. During the voyage variable winds and weather were encountered, with fog banks lasting four hours.

The largest vessel ever built in America will be launched at the famous Cramp shipyard some time in this month. The giant merchantman, the six-decker St. Louis of the American Line, will receive its initial baptism in the waters of the Delaware and a new era in the history of the American merchant marine will be inaugurated. While not as large as the Lucania and her twin sister, the Campania, nor endowed with their horse-power, the St. Louis will be greater and swifter than the Paris or New York and will make at least 20 knots an hour on her trans-Atlantic voyages. The new vessel is more than one-tenth of a mile long, being 554 feet over all, with an extreme beam of 63 feet and a tonnage of 11,000 tons. Her chief glory will be that she has been constructed from keelson to truck of American steel in an American shipyard and represents American skill and muscle in model, design, material and building.-Exchange.

The new Union station at St. Louis, now open for traffic, is said to be the largest in the world. It covers the city for 75 cents a month, in eleven and a half acres, the yards, storage space and tracks about 30

Polled Angus Stock Arrives for Mr. McCandless.

The bark Oakland, Capt. Mc-Guire, arrived about 2 o'clock yesterday afternoon, twenty-five days out from Seattle, Washington, She brought a miscellaneous cargo, consigned to the California Feed Company. This is her first trip to this port.

Among other things on board under the personal care of Mr. Mc-Candless. The animals are beauties. Their glossy black hair looks as fine as silk, and they seem to be in the pink of condition. They are thoroughbreds, the pedigrees of far back as 1800. None of them were lost on the trip.

There are also on board a number of horses and mules, shipped by Mr. Feek the contractor for the Waianae extension of the Oahu railroad. One of them died on the passage the cause being, according

to the captain, old age.
T. C. King, of the California Feed Company, received about fifty chickens.

The crew of the Atlantic liner Lucania is divided into three departments: sailing, 54 hands; engineers and firemen, 190; stewards, 179; total, 423 hands.
